

Carnahan Group objectively and independently performs business valuations for healthcare entities to establish a Fair Market Value (FMV).

# BUSINESS VALUATIONS

A healthcare business valuation is a comprehensive assessment of the financial worth of a healthcare-related enterprise. This process involves analyzing various factors such as the company's assets, liabilities, revenues, expenses, market position, and growth potential.

## Factors Driving Healthcare Business Valuations

Location | Competition | Quality of Care | Growth Potential

- Reason to Consider a Valuation:**
- ✓ Sale/Purchase
  - ✓ Merger with another group or hospital
  - ✓ Buy-in of a new associate
  - ✓ Payout to a retiring partner
